

# Aglia® Brite

In addition to the classic Mepps® French blade, every Mepps® Aglia® Brite features a solid brass brightly-colored, high-visibility body with a durable, chip-resistant finish. There's also a Brite strike-attractor bead and an extra-sharp VMC hook. Blades are either genuine silver plated or polished brass.

# Trophy Series

If you're planning a trophy salmon or steelhead trip to Alaska, these spinners were designed with you in mind. Available only in sizes #4 and #5 and available with either treble or single hooks. Blades and bodies are solid brass—no lead components. Spinner shaft is stainless steel to resist the elements. Silver blades feature genuine silver plating for maximum flash at all depths and under all water and light conditions. Painted bodies feature brilliant epoxy finishes that are both fade and chip resistant. A water-activated self-lubricating, folded, solid brass clevis is much more durable than a stirrup-style clevis, and allows the blade to begin spinning freely as soon as the lure hits the water.
